

LYCEON — Counsel Package: Launch Legal Drafts

Internal; prepared for outside counsel. Prepared 2026-10-07. This package covers LYCEON's **single Privacy Policy**, version 6 (legal/privacy-policy/v6), and the 11 other launch-state legal drafts in docs/compliance/legal-drafts/ (see that folder's README.md). v6 is the single final pre-launch version; the cleanup/guardian session owns it. It carries #1128's v5 (already published and sealed) plus the SEO items. **The v6 text in this package is from draft PR #1138 (claude/privacy-policy-v6, into cleanup) at commit d16ed1d0 (d16ed1d0a8af267db4da1b2225c35f7decc32da6), its head after SEO legal's final wording push.** #1138 merges only after counsel signs off. The earlier draft privacy-policy-v5.md is **retired** and superseded by v6 (§2). **The legal text of the drafts is unchanged by this package.** The drafts follow in reading order after this note.

1. Cover note

What LYCEON is. LYCEON is an online preparation service for the SAT. It provides:

- daily practice questions with a worked explanation after each answer;
- a diagnostic test;
- full-length practice tests with score reports;
- a study plan and calendar;
- a progress view for a connected parent or guardian;
- LISA, an AI tutor.

A free plan covers daily practice (40 questions a day), worked explanations, review and the diagnostic. A paid monthly subscription adds full-length practice tests, the AI tutor and the study plan. A public "SAT Question of the Day" can be answered without an account.

Who uses it.

- **Students**, mainly aged 13 to 18.
- **Students under 13**, who can use the learning features only while a parent or guardian is connected to their account. LISA, analytics, session recording, marketing and review invitations are all closed to users under 13 (Children's Online Privacy Notice; Privacy Policy §4).
- **Parents and guardians**, who connect to a student's account and have a view-only progress view. Visibility requires an active connection and the student's active plan.
- **Schools and districts**, which may use LYCEON for their students under the SDPC National Data Privacy Agreement and the School Data Privacy Addendum (FERPA "school official").

Where it operates. United States only at launch (owner ruling, 2026-10-07). LISA and the whole service are US-scoped from a legal perspective. Please review the drafts against US law:

- **COPPA** (16 CFR Part 312);

- **FERPA** (34 CFR Part 99);
- **CAN-SPAM** (15 U.S.C. §7701 et seq.);
- **FTC Act §5**, including advertising substantiation for the claims in §6 below;
- **state privacy law**, including California (CCPA/CPRA, CalOPPA) and the universal opt-out laws of other states.

Some drafts also address the EU, UK, Ireland, Australia or Canada. Those passages remain in the drafts as written. The checklist questions that apply only to those markets are marked "**not applicable at launch: US only**" in §3 below and are kept for later. Counsel may advise whether those passages should stay in the published text for a US-only launch.

Processors at launch (Sub-Processor List):

Provider	Role
Supabase	Database and authentication
Vercel	Hosting
Stripe	Payments
Google Cloud	AI services, content safety and background processing
Google	Sign in with Google
Resend	Email
Desmos	Graphing calculator
Slack	Internal team notifications (identifiers only)
PostHog	Product analytics and session recording; only after cookie consent, never for users under 13
Cloudflare	Turnstile bot protection
Trustpilot	Customer reviews; adults and guardians only

Current state, for context:

- Analytics loads only after the visitor accepts cookies, and a Global Privacy Control signal is treated as a refusal.
- Session recording is enabled, with the question-and-answer areas and the AI-tutor conversation excluded from capture.
- No personal information is sold or shared for cross-context behavioural advertising.

What we ask counsel to do:

1. Review and tighten the Privacy Policy and each of the 11 drafts. They are industry-standard drafts written to be accepted or tightened, not bespoke mechanisms.
2. Answer the 69 checklist questions in §3.
3. Supply or confirm the placeholders in §4 that are counsel's.
4. Confirm or tighten the public marketing claims in §5.

- Record a sign-off per draft. Each signed-off draft is then published in the product's versioned legal folder.

2. The drafts, in reading order

#	Draft	File	Replaces
1	Privacy Policy, version 6	legal/privacy-policy/v6/en.md from #1138 @ d16ed1d0 (draft PR into cleanup; merges after counsel sign-off)	published v5 (#1128)
2	Children's Online Privacy Notice	childrens-privacy-notice.md	new
3	Parental Consent Mechanism	parental-consent-mechanism.md	new
4	Cookie Policy	cookie-policy.md	new
5	Cookie Banner and Consent Notice text	cookie-banner-text.md	new
6	California Notice at Collection	ca-notice-at-collection.md	new
7	California Do Not Sell or Share / Global Privacy Control	ca-do-not-sell-share-gpc.md	new
8	AI Content Disclosure	ai-content-disclosure.md	new
9	Marketing Communications Consent	marketing-communications-consent.md	new
10	Billing Terms, version 3	billing-terms-v3.md	published v2
11	School Data Privacy Addendum	school-data-privacy-addendum.md	new
12	Sub-Processor List	sub-processor-list.md	new

Retired: privacy-policy-v5.md, the earlier SEO Privacy Policy draft, is superseded by Privacy Policy v6 (Karl, 2026-10-07: one Privacy Policy for counsel; v5 is published and sealed, so the SEO items go into v6). It is not sent. Its 15 checklist questions are carried into v6 (§3.1).

The order runs from the Privacy Policy, through the children's and consent documents, cookies, California notices, AI, marketing and billing, to the school and processor documents. Each draft ends with "Standard sources followed" and its own "Counsel checklist". Both sections are removed on publication.

3. Counsel checklist questions (69), grouped by draft

Each question appears once, under the draft that raises it, numbered as in that draft. Where two drafts ask the same thing, a "See also" note cross-references the other. Answering one may answer both, but neither is

dropped. Questions that apply only to markets outside the United States are marked **Not applicable at launch: US only**.

3.1 Privacy Policy, version 6 (PP, 15): carried into v6

These 15 questions were raised by the retired draft privacy-policy-v5.md and are **carried into Privacy Policy v6**, the single Privacy Policy, so the count stays traceable. Section numbers in the questions are the retired draft's. **Re-checked against v6 at #1138 @ d16ed1d0** (2026-10-07, after SEO legal's final wording push). The table maps each question to v6 and says where v6 already gives an answer for counsel to confirm. No question is added.

Q	Retired draft	v6	Re-check
PP-1	§4.1	§4.1, §4.5	Open. v6 §4.5 says the connection is how consent is obtained and claims no particular verifiable-consent standard.
PP-2	§4.1	§4.1, §4.6, §6.4	Open. Before connection v6 holds only the guardian email (§4.1); without a guardian the account is suspended and deleted (§4.6, §6.4). No period is stated.
PP-3	§6.2	§6.2, §6.3	Open. Guardian consent record kept permanently (§6.2); Billing Terms consent at least three years (§6.3).
PP-4	§6.6	§6.6, §9	Answered in v6, to confirm: analytics events up to 12 months then deleted; session recordings 30 days.
PP-5	§9	§9	Not applicable at launch: US only.
PP-6	§5.2	§5.2	Open. v6 §5.2 lists neither Desmos nor Trustpilot as a provider; Trustpilot appears only as a link, with no data sent (paragraph after the table).
PP-7	§8.2	§2, §5.2	Open. v6 describes an in-app review prompt and a Trustpilot link, not review invitations.
PP-8	§10	§10	Not applicable at launch: US only.
PP-9	§5.5	none	Open. v6 has no schools / FERPA section; FERPA wording is in the School Data Privacy Addendum (§3.11).
PP-10	§11	§11	Open.
PP-11	§5.2	§5.2	Open. v6 §5.2 lists Supabase, Vercel, PostHog, Stripe, Google Cloud (Vertex AI), Resend and Cloudflare (Turnstile). The Sub-Processor List (draft 12) also lists Google sign-in, Desmos, Slack and Trustpilot.
PP-12	§12	§12	Open. v6 §12 has no postal address line or placeholder (§4 below).
PP-13	§1.1, §2	§1.1, §2, §6.1	Answered in v6, to confirm: reviews, private feedback and marketing-email choices are kept while the account is open and deleted with it.

Q	Retired draft	v6	Re-check
PP-14	§4.3	§4.3	Open. v6 §4.3 permits private feedback from under-13 accounts.
PP-15	§2	§6.1, §9.2	Open. Marketing-choice records are kept until the account is deleted (§6.1); the legal basis is the open point.

- **PP-1.** Confirm that the parental consent method in Section 4.1 meets 16 CFR §312.5(b). *See also CN-1, PC-1.*
- **PP-2.** Confirm whether 16 CFR §312.5(c)(1) requires deletion of an under-13 account's sign-up information if no parent or guardian connects within a set period. *See also CN-2.*
- **PP-3.** Confirm the retention of consent records in Section 6.2.
- **PP-4.** Complete the analytics and session recording retention periods in Section 6.6.
- **PP-5.** Confirm whether any analytics may run before a cookie choice is made in the EU and UK (ePrivacy Directive Article 5(3)). **Not applicable at launch: US only.**
- **PP-6.** Confirm the characterization of Desmos and Trustpilot as service providers. *See also DNS-2, SP-2.*
- **PP-7.** Confirm the legal basis for review invitations in Section 8.2.
- **PP-8.** Confirm the international transfer statement in Section 10. **Not applicable at launch: US only.** Processor locations remain in SP-1.
- **PP-9.** Confirm the FERPA wording in Section 5.5.
- **PP-10.** Confirm the change-notice wording in Section 11.
- **PP-11.** Confirm that Section 5.2 and the Sub-Processor List are complete on the publication date. *See also SP-5.*
- **PP-12.** Insert the postal address in Section 12. *See also CN-3, MC-3; §4.*
- **PP-13.** Set retention periods for in-app reviews, private feedback and marketing-consent records (Sections 1.1 and 2). No period is stated in this draft. As built, each is kept until the account is deleted and is deleted with it; marketing-consent records are not otherwise expired.
- **PP-14.** Confirm that accepting private feedback from users under 13 (Section 4.3) is covered by the parental notice and consent in Sections 4.1 and 4.5.
- **PP-15.** Confirm the legal basis for keeping marketing-consent records after consent is withdrawn (Section 2), and for how long (item 13). *See also MC-4.*

3.2 Children's Online Privacy Notice (CN, 6)

- **CN-1.** Confirm that the parental consent method in Section 2 meets 16 CFR §312.5(b). *See also PP-1, PC-1.*
- **CN-2.** Confirm whether 16 CFR §312.5(c) permits holding the information described in Section 2 before a parent or guardian connects, and for how long. *See also PP-2.*
- **CN-3.** Insert the postal address and telephone number in Section 1 (16 CFR §312.4(d)(1)). *See also PP-12, MC-3; §4.*

- **CN-4.** Confirm whether referring to the Privacy Policy satisfies the retention policy requirement in 16 CFR §312.10.
- **CN-5.** Confirm that retaining de-identified learning records after deletion is consistent with 16 CFR §312.10.
- **CN-6.** Confirm whether jurisdiction-specific sections are required (Ireland, Australia, UK Children's Code). **Not applicable at launch: US only.**

3.3 Parental Consent Mechanism (PC, 5)

- **PC-1.** Confirm whether the process in Sections 1 to 4 is a verifiable parental consent method under 16 CFR §312.5(b), or which method must be added. *See also PP-1, CN-1.*
- **PC-2.** Confirm whether a payment-card transaction at checkout may serve as a verification method for subscribing families.
- **PC-3.** Confirm the consent statement, including the 13 to 17 variant.
- **PC-4.** Confirm that the consent record is adequate evidence of consent.
- **PC-5.** Confirm the position for jurisdictions with a digital age of consent above 13 (for example Ireland). **Not applicable at launch: US only.**

3.4 Cookie Policy (CP, 5)

- **CP-1.** Complete each duration marked [●]. *See §4.*
- **CP-2.** Confirm the strictly necessary classification of each local storage and session storage item.
- **CP-3.** Confirm whether Desmos, Cloudflare Turnstile or any Trustpilot content on the website stores information in the browser, and whether any of it requires consent.
- **CP-4.** Confirm the 6-month duration of the cookie consent record. *See also CB-4.*
- **CP-5.** Confirm that the Do Not Track statement meets Cal. Bus. & Prof. Code §22575(b)(5).

3.5 Cookie Banner and Consent Notice text (CB, 5)

- **CB-1.** Confirm that the first layer provides clear and comprehensive information under ePrivacy Directive Article 5(3). **Not applicable at launch: US only.**
- **CB-2.** Confirm whether session recording requires a separate choice from analytics.
- **CB-3.** Confirm the Global Privacy Control handling for users in the EU and UK. **Not applicable at launch: US only.** US GPC handling is DNS-3.
- **CB-4.** Confirm the 6-month interval before the choice is requested again. *See also CP-4.*
- **CB-5.** Confirm the content and retention period of the consent record.

3.6 California Notice at Collection (CA, 5)

- **CA-1.** Confirm the category mapping, including "education information" (§1798.140(v)(1)(J)) and the category for tutor conversation text.
- **CA-2.** Confirm that the retention periods meet 11 CCR §7012(e)(4).
- **CA-3.** Confirm the classification of date of birth.
- **CA-4.** Confirm placement at sign-up and checkout under 11 CCR §7012(c).

- **CA-5.** Confirm whether LYCEON meets a CCPA applicability threshold.

3.7 California Do Not Sell or Share / Global Privacy Control (DNS, 4)

- **DNS-1.** Confirm whether this notice is required under 11 CCR §7013(a), and the title of the footer link.
- **DNS-2.** Confirm that the PostHog and Trustpilot relationships are service-provider relationships and not "sharing" under §1798.140(ah). *See also PP-6, SP-2.*
- **DNS-3.** Confirm how a GPC signal applies to a signed-in account under 11 CCR §7025(c)(1).
- **DNS-4.** Confirm the wording covers universal opt-out mechanisms under other state laws (for example Colorado, Connecticut and Texas).

3.8 AI Content Disclosure (AI, 5)

- **AI-1.** Confirm that Section 1 meets the transparency obligations in AI Act Article 50(1). **Not applicable at launch: US only.**
- **AI-2.** Assess whether the service is high-risk under AI Act Annex III. **Not applicable at launch: US only.**
- **AI-3.** Confirm the statement in Section 2 that no automated decisions with legal or similarly significant effects are made (GDPR Article 22). **Not applicable at launch: US only.**
- **AI-4.** Confirm whether an Australian automated decision-making disclosure is required. **Not applicable at launch: US only.**
- **AI-5.** Confirm whether an in-product reporting option is required in addition to email.

3.9 Marketing Communications Consent (MC, 5)

- **MC-1.** Confirm that marketing to students aged 13 to 17 who opt in is permitted in each launch market, and whether parental notice is required. At launch the only market is the United States.
- **MC-2.** Confirm that the checkbox wording meets CASL's express consent requirements. **Not applicable at launch: US only.**
- **MC-3.** Insert the postal address in Section 6 (CAN-SPAM §7704(a)(5); CASL). The CAN-SPAM requirement applies at launch. *See also PP-12, CN-3; §4.*
- **MC-4.** Confirm the consent record fields and their retention period after opt-out. *See also PP-15.*
- **MC-5.** Confirm the unsubscribe processing wording.

3.10 Billing Terms, version 3 (BT, 4)

- **BT-1.** Confirm that "practice beyond the free plan's daily limit" accurately describes the paid plan, and whether any per-session limit must be disclosed.
- **BT-2.** Confirm the description of parent and guardian access in Section 1.
- **BT-3.** Confirm whether the changes from version 2 require existing subscribers to consent again, or notice under Section 9.
- **BT-4.** Confirm consistency with the Subscription and Auto-Renewal Notice.

3.11 School Data Privacy Addendum (SA, 5)

- **SA-1.** Confirm the school authorization wording in Section 2.
- **SA-2.** Confirm the standard position on de-identified data after termination.
- **SA-3.** Name the security framework for the NDPA security exhibit.
- **SA-4.** Confirm which state exhibits to prepare first.
- **SA-5.** Confirm whether this addendum is published or supplied to schools on request.

3.12 Sub-Processor List (SP, 5)

- **SP-1.** Complete each location, and the transfer safeguard for each provider (standard contractual clauses, UK addendum or Data Privacy Framework). The locations apply at launch. **The transfer safeguards are not applicable at launch: US only.** *See §4.*
- **SP-2.** Confirm the processor characterization of Desmos, Slack and Trustpilot. *See also PP-6, DNS-2.*
- **SP-3.** Confirm whether to commit to a notice period before engaging a new sub-processor.
- **SP-4.** Confirm that a data processing agreement is in place with each provider.
- **SP-5.** Confirm that the list is complete on the publication date. *See also PP-11.*

Count: PP 15 + CN 6 + PC 5 + CP 5 + CB 5 + CA 5 + DNS 4 + AI 5 + MC 5 + BT 4 + SA 5 + SP 5 = **69**.

Not applicable at launch: US only: PP-5, PP-8, CN-6, PC-5, CB-1, CB-3, AI-1, AI-2, AI-3, AI-4, MC-2, and the transfer-safeguard part of SP-1.

4. Open placeholders

Every placeholder left in the drafts: each [•], [POSTAL ADDRESS], [TELEPHONE] and [link]. The bracketed button labels in the cookie banner text (for example [Accept all]) are interface labels, not placeholders.

Placeholder	Where	Who	Checklist
Postal address	Privacy Policy v6 §12 (no line or placeholder yet: "LYCEON AI" only); Children's Notice §1; Marketing Consent §6	LYCEON (Karl)	PP-12, CN-3, MC-3
Telephone number	Children's Notice §1 ([TELEPHONE])	LYCEON (Karl)	CN-3
Analytics and session recording retention	Privacy Policy v6 §6.6 states them (12 months; 30 days); no longer a placeholder, counsel to confirm	Counsel	PP-4
In-app review, private feedback and marketing-consent record retention	Privacy Policy v6 §6.1 states it (while the account is open; deleted with it); no longer a placeholder, counsel to confirm	Counsel	PP-13, PP-15, MC-4
Cookie consent record retention	Banner consent record	Counsel	CB-5

Placeholder	Where	Who	Checklist
Cookie durations (4)	Cookie Policy §3: sb-<project>-auth-token, __Host-csrf, the Turnstile security check, ph_<project>_posthog	Counsel with LYCEON	CP-1
Sub-processor locations (11)	Sub-Processor List: Supabase, Vercel, Stripe, Google Cloud, Google, Resend, Desmos, Slack, PostHog, Cloudflare, Trustpilot	Counsel with LYCEON	SP-1
Privacy Policy link	California Notice at Collection, final line (Privacy Policy: [link])	Set on publication (the published Privacy Policy URL)	—
Effective date (11)	Every draft's header except the Sub-Processor List	Set on publication	—
Last updated (1)	Sub-Processor List header	Set on publication	—

5. Public claims for counsel to confirm

These are on LYCEON's public pages. Karl has approved each one, and each is recorded with its support in the internal claim inventory (docs/compliance/claim-inventory.md). We ask counsel to confirm each as acceptable under FTC advertising standards, or to tighten it.

1. **"Study Smarter, Score Higher"** (slogan, on the homepage and every public footer; inventory X1, H43). It is an implied score-improvement claim. Test-prep score claims are the kind regulators expect substantiation for. LYCEON publishes no score-improvement statistic. Is it acceptable as a slogan, or should it be tightened?
2. **"SAT prep that adapts to you."** (homepage headline; inventory H32). Adaptivity is part of the paid study plan only. The line directly beneath it (H33) names the paid plan. Is that scoping sufficient?
3. **"An always-available alternative to private tutoring"** (homepage; inventory H33). This is a category comparison with private tutoring, not with a named company. Is any additional disclosure needed?
4. **Competitor price data and the LYCEON-versus-a-tutor comparison** (parent pages /sat-tutor-cost, /lyceon-vs-sat-tutor, /is-sat-tutoring-worth-it; inventory W7–W9 and their sources). Third-party tutoring prices are cited, dated "as viewed" and sourced. LYCEON's own price is read live from Stripe and never written into the page. Is the presentation acceptable, and how often must cited prices be re-checked?
5. **Free-plan claims:** "40 practice questions a day", "A worked explanation after every question", "A full diagnostic test", "No credit card required" (inventory W1, H37, H39, H43, M9). Are these free-plan statements acceptable, given that the paid plan is described alongside them?

6. Rebuilding this package

The PDF in out/ is generated from this file, Privacy Policy v6 and the 11 drafts by `pnpm run build:counsel-pdf`, which uses no new dependencies. v6 is read from #1138 at the pinned commit recorded above (`git fetch origin claude/privacy-policy-v6` first); the build fails if this file names a different commit. Each page footer names this repository's source commit and the v6 pin. If #1138 changes, re-pin, re-check §3.1 and regenerate before sending.

LYCEON Privacy Policy

LYCEON respects your privacy and is committed to protecting personal data. This Privacy Policy explains how we collect, use, store, share, and protect information when students, parents, and guardians use the LYCEON platform.

This policy applies to students using LYCEON, parents or guardians connected to a student account, people who pay for a subscription, and visitors to the LYCEON website or app.

By using LYCEON, you agree to this Privacy Policy.

1. Information We Collect

1.1 Information You Provide

- Name or username
- Email address
- Account credentials
- A guardian email address, where a student provides one at sign-up
- Messages, responses, or feedback submitted through the platform, including private feedback you send to the LYCEON team
- Reviews you choose to leave about LYCEON: a star rating, optional text, and whether LYCEON may quote the review anonymously
- Your choice about marketing emails, and when and where you made it

1.2 Learning and Usage Data

- Answers submitted to questions
- Progress and performance data
- Time spent on activities
- Interaction patterns with explanations and AI tools

1.3 Technical and Device Data

- Device type and browser
- IP address
- Log data and error reports
- Cookies and similar technologies, as described in Section 9
- If you accept analytics cookies, how you first arrived at LYCEON (for example, from a search engine or an ad), as described in Section 9

1.4 Billing Information

We do not store payment card numbers. Payments are processed by Stripe, and card details go directly to Stripe without passing through LYCEON's systems.

When a subscription is purchased, **Stripe receives and stores** the payer's name, email address, billing address, and payment method details. **LYCEON stores** the payer's Stripe customer identifier, the subscription identifier, the subscription status and billing period, and which student account the subscription funds.

We also store a record of the payer's consent to the Billing Terms — the date and time, the version agreed to, and the account it belongs to — as described in Section 6.3.

2. How We Use Information

We use collected data to:

- Provide and operate the LYCEON platform
- Personalize learning experiences
- Improve explanations, content quality, and difficulty targeting
- Monitor platform performance and security
- Prevent abuse, cheating, or misuse
- Process payments and manage subscriptions
- Communicate important updates or notices
- Understand how the website and app are used, and test improvements to them, if you accept analytics cookies (Section 9)
- Read the reviews and private feedback you send us, to improve the service
- Quote a review anonymously, only if its author allowed it
- Keep a record of marketing email choices, so we can honor them and show when consent was given or withdrawn
- Send marketing emails, only if you opt in

We do not use personal data for targeted advertising, and we do not sell personal data.

3. AI and Data Usage

LYCEON uses artificial intelligence to support learning and personalization.

3.1 AI Personalization

Learning data may be used to adapt explanations and hints, adjust difficulty levels, and improve clarity and instructional effectiveness.

3.2 Model Improvement

LYCEON may analyze data in aggregated, anonymized, or pseudonymized form to improve platform quality and enhance AI accuracy, safety, and reliability.

3.3 Third-Party AI Providers

Conversations with LISA, our AI tutor, are processed by Google Cloud Vertex AI. Data shared with that service is limited to what is needed to generate a response, and Google is contractually prohibited from using it to train public or general-purpose models.

No data from a user under 13 is sent to any third-party AI provider, because LISA is not available below that age. See Section 4.

4. Children's Privacy

LYCEON is designed for students aged 13 and over. Users under 13 may use LYCEON only under the conditions in this Section.

4.1 Under-13 Accounts Require a Connected Guardian

A student under 13 **cannot use LYCEON until a parent or guardian has connected their account**.

Before that connection exists, the only information we hold about the student is the guardian email address they provided at sign-up, which we use solely to invite their guardian. No learning data, no usage data, and no platform activity is collected, because the account is not active.

When a guardian connects and agrees to the Parent / Guardian Terms, the account activates.

4.2 No AI Tutor Below 13

LISA is not available to any user under 13. This means no conversation data from an under-13 account is created, stored, or transmitted to Google Cloud Vertex AI or any other third-party AI provider.

4.3 What We Collect From an Under-13 Account

Once active, an under-13 account is subject to the same collection described in Section 1, **except** that an under-13 account:

- has no tutor conversations;
- is excluded from analytics and session recordings;
- never receives marketing emails;
- is never asked to review LYCEON and cannot leave a review; and
- may send us private feedback, which we use only to improve the service.

4.4 Guardian Rights

A connected guardian may request access to, correction of, or deletion of their student's data at any time by contacting support@lyceon.ai.

Disconnecting ends the student's access and you may request deletion of their data at the same time.

4.5 How We Treat This Consent

Connecting a guardian account is how we obtain and record consent for an under-13 student's use of LYCEON. We describe this mechanism plainly rather than claiming it satisfies any particular legal standard for verifiable parental consent. If you have questions about how we handle your student's data, contact support@lyceon.ai and we will answer directly.

4.6 If We Learn an Account Is Under 13 Without a Guardian

The account will be suspended, and associated personal data will be deleted in accordance with applicable law.

5. How We Share Information

LYCEON shares information only where necessary to operate the platform, where you direct us to, or where the law requires it.

5.1 With a Connected Guardian

A linked parent or guardian can see the student's mastery level for each subject domain (for example, Algebra or Craft and Structure), the student's study calendar and progress, projected and target scores, and full-length practice test results. Guardians cannot see skill-level detail, individual answers, or conversations with LISA, our AI tutor.

A connected guardian cannot see the student's conversations with LISA. Tutor conversations are private to the student.

This sharing is a direct consequence of connecting, and either party can end the connection at any time.

5.2 Service Providers and Sub-Processors

We share information with the following providers, which process data only on LYCEON's instructions:

Provider	Purpose	What it receives
Supabase	Database, authentication, hosting	Account data, learning data
Vercel	Application hosting and delivery	Request and log data
PostHog	Product analytics and session recordings, only with your consent and never for users under 13	Usage events and page interactions, as described in Section 9

Provider	Purpose	What it receives
Stripe	Payment processing	Payer name, email, billing address, payment method
Google Cloud (Vertex AI)	LISA, the AI tutor	Tutor conversation content — never for users under 13
Resend	Email delivery	Email address and message content
Cloudflare (Turnstile)	Security and bot protection	Technical browser data

Where a provider is used for AI generation, it is contractually prohibited from using personal data to train public or general-purpose models.

Parents, guardians and students aged 18 and over may be shown a link to review LYCEON on Trustpilot. If you follow it, you leave your review on Trustpilot's website under Trustpilot's own privacy policy. We do not send Trustpilot any of your information.

5.3 Legal and Safety Reasons

We may disclose information where required to comply with legal obligations, respond to lawful requests, or protect the rights, safety, or security of LYCEON, our users, or others.

Where a tutor conversation raises a safety concern, we may review it and contact a connected guardian or, where necessary, appropriate authorities. This is described further in **Trust & Safety at LYCEON**.

5.4 We Do Not Sell Personal Information

LYCEON does not sell personal information and does not share it for cross-context behavioral advertising.

6. How Long We Keep Your Information

We keep information only as long as we need it, and we delete or anonymize it on the schedule below. We do not keep any category of information indefinitely except where this section says so explicitly.

6.1 Your Account and Learning Data

While your account is open, we keep your profile, your practice and test activity, and your progress data so the service works.

Tutor conversations are kept while your subscription is active. If your subscription ends, they are deleted seven days later. If you resubscribe within those seven days, they are kept. If you have never subscribed, they are kept while your account is open and are deleted when your account is deleted.

Conversations flagged for safety review are kept until our safety review team has completed its review and closed the case. They are then deleted by that team. While a review is open, these records may be kept longer than our standard retention periods.

Notifications you receive in the app are kept for 90 days.

Reviews, private feedback and the record of your marketing email choices are kept while your account is open and are deleted when your account is deleted.

If your account is inactive for 12 months, we delete it. Before deleting an inactive account, we will email you at least 48 hours in advance (and, for a student, their linked parent or guardian). Signing in or using Lyceon during that time cancels the deletion.

6.2 When You Delete Your Account

You have 7 days to change your mind. Nothing is erased during that window and you can cancel at any time.

After 7 days we permanently erase the information that identifies you — your name, email address, date of birth, and login. Your learning activity is anonymized: the records remain, but nothing in them connects to you, and we cannot reverse that.

The one exception is conversations flagged for safety review. These are disconnected from the deleted account and kept only until the safety review is closed, as described in Section 6.1.

Three things survive, and here is exactly why:

- A record that you asked us to delete your account, including your email address, kept for 24 months. We are required to keep records of these requests. After 24 months we remove the email address and keep only the date and outcome.
- A record that a parent or guardian gave consent, kept permanently. This is how we can show consent was properly obtained.
- Payment records, kept for 7 years, because tax and financial rules require it.

If you asked us not to contact you again, we keep your email address on a do-not-contact list until you tell us otherwise. That is the only way we can honour the request.

6.3 Consent to the Billing Terms

Records of consent to the Billing Terms are kept for no less than three years from the date of consent, or one year after the subscription ends, whichever is longer. This is a separate record from the parent or guardian consent described above, and it is kept on its own clock.

6.4 Children

A child under 13 may use LYCEON only with an active guardian connection, as described in Section 4. If we identify an account belonging to a child under 13 without one, we delete it.

6.5 Security and Operational Records

Records of sign-ins, security events and administrative actions are kept for 365 days. When you delete your account, your identity is removed from these records immediately; the records themselves remain for the rest of that period. Records of a parent or guardian connecting to or disconnecting from a student are the exception: they are consent records and are kept permanently (Section 6.2).

Records of how our systems were configured are kept permanently, as an operational record. These describe our operations, not you.

6.6 Analytics

We use PostHog to understand how the service is used, only if you accept analytics cookies, and never for users under 13. Analytics events are kept for up to 12 months and then deleted. Session recordings are kept for 30 days.

6.7 Anything Else

Where we keep operational records that include information about you and are not listed above, we keep them for no more than 90 days.

6.8 Changes

If we change these periods we will update this section and note the date.

7. Data Security and Breach Notification

LYCEON uses reasonable administrative, technical, and organizational safeguards to protect personal data, including secure authentication, access controls, and monitoring and logging.

No system is completely secure. In the event of a data breach that compromises personal information, LYCEON will notify affected users and, where applicable, connected guardians, in accordance with legal requirements.

8. Your Rights and Choices

Depending on where you live, you may have rights to access your personal data, correct inaccurate data, request deletion, request a portable copy, restrict or object to certain processing, and withdraw consent.

Parents and guardians may exercise these rights on behalf of a connected student.

8.1 California Residents

Under the California Consumer Privacy Act as amended, you have the right to know what personal information we collect, use, and disclose; to delete it; to correct it; to obtain a portable copy; and to be free from discrimination for exercising these rights.

We do not sell personal information and do not share it for cross-context behavioral advertising. We honor the Global Privacy Control signal (Section 9).

8.2 European Union, EEA, and United Kingdom Residents

Where the GDPR or UK GDPR applies, we process personal data on the following bases: **performance of a contract** for operating your account and subscription; **legitimate interests** for platform security, abuse prevention, and service improvement; **consent** for a guardian's connection to a student account; and **legal obligation** where required.

You have the rights of access, rectification, erasure, restriction, portability, and objection, and the right to lodge a complaint with your supervisory authority.

8.3 Making a Request

Contact support@lyceon.ai. We will respond within the time required by applicable law and may need to verify your identity first.

9. Cookies, Analytics and Session Recording

LYCEON uses cookies and similar technologies that are strictly necessary to keep you signed in, protect your account, and remember your settings. These do not require your consent.

We do not use advertising or cross-site tracking cookies.

We use PostHog for product analytics and session recordings, on our website and on pages within the signed-in app:

- **Your choice.** We ask whether you accept analytics cookies when you first visit. You can change your choice at any time using the **Cookie settings** link. We keep a record of your cookie choices for as long as needed to show that we have your consent.
- **Global Privacy Control.** If your browser sends a Global Privacy Control signal, we treat it as a refusal.
- **Limited data.** We do not send names or email addresses to PostHog, IP addresses are anonymized, and analytics never includes your answers to questions or your conversations with LISA.
- **Session recordings.** With your consent, we make session recordings of how pages are used. Certain content is masked in these recordings, including what you type, questions and answers,

conversations with LISA, and the text of reviews and feedback. Session recordings are kept for 30 days.

- **How you found us.** If you accept analytics cookies, we note the kind of source you first arrived from — direct, a referring website, a paid ad, a search engine, or unknown — for the rest of that browser session, and store it with your account if you sign up. We do not keep the address of the page you came from or the name of any campaign.
- **Testing improvements.** If you accept analytics cookies, we may show you one of several versions of a page, such as the homepage, to learn which works better.
- **Children.** Accounts of users under 13 are excluded from analytics and session recordings.

You can control cookies through your browser settings, though some features may not function properly if disabled.

9.1 Question of the Day

You can answer the Question of the Day without an account. To protect it from automated abuse, we use Cloudflare Turnstile, and we limit how often it can be used from one connection using a keyed one-way code derived from your IP address, which we delete within two days; we never store the IP address itself. We keep only daily totals of how many answers were submitted and how many were correct. We do not keep anyone's individual answers.

9.2 Marketing Emails

Users aged 13 and over may choose to receive marketing emails. We send them only if you opt in, and we record when you opted in or out, where you did so, and the version of the wording you agreed to. You can opt out of marketing emails at any time in your account settings or by using the unsubscribe link in any marketing email. Users under 13 never receive marketing emails.

10. International Users

LYCEON is operated from the United States. If you access LYCEON from outside the U.S., your information may be transferred to and processed in the United States and other jurisdictions with different data protection laws.

Where required, we rely on appropriate safeguards for international transfers, including standard contractual clauses with our providers.

11. Changes to This Privacy Policy

LYCEON may update this Privacy Policy from time to time. Each version carries a version number and effective date.

If changes are material, we will provide notice through the platform or other reasonable means. Continued use of LYCEON after changes take effect constitutes acceptance.

12. Contact

support@lyceon.ai

LYCEON AI

LYCEON Children's Online Privacy Notice

Version 1 · Effective date: [●]

For parents and guardians of students under 13

This notice explains what LYCEON collects from a student under 13, how we use it, and the choices available to you. It forms part of the **LYCEON Privacy Policy**.

1. Who We Are

LYCEON AI operates the LYCEON SAT preparation service.

- Email: support@lyceon.ai
 - Postal address: [POSTAL ADDRESS]
 - Telephone: [TELEPHONE]
-

2. Parent or Guardian Connection

LYCEON is designed for students aged 13 and over. A student under 13 can use LYCEON's learning features only while a parent or guardian is connected to their account.

- **Before you connect**, your child's account can be used only to connect a parent or guardian and to manage the account. We hold only the information needed to create it: name, email address, date of birth and sign-in details, the record of the sign-up agreements, and technical data such as IP address.
 - **If your child asks us to**, we email you their link code at the address they provide. We use your address only to send that email and to prevent misuse of this feature.
 - **You connect** by entering your child's link code in your own LYCEON account and agreeing to the **LYCEON Parent / Guardian Terms**. You must be at least 18.
 - **If you disconnect** and no other parent or guardian is connected, your child's learning features are no longer available.
-

3. Information We Collect

- **Account information:** name, email address, date of birth and sign-in details.
- **Learning activity:** answers to practice and test questions, progress and time spent.

- **Technical information:** device and browser type, IP address, and the cookies needed to keep your child signed in.

We collect only the information reasonably necessary for your child to use LYCEON, and we do not require more information as a condition of participation.

4. What We Do Not Do

- **No AI tutor.** LISA, our AI tutor, is not available to users under 13.
 - **No analytics or session recording.** Accounts of users under 13 are excluded.
 - **No marketing or review invitations.** We do not send them to users under 13.
 - **No advertising.** We do not show advertising, use your child's information for advertising, or sell or share it.
 - **No public profile.** Your child cannot make personal information publicly available.
-

5. How We Use Information

We use your child's information to provide the service, show their practice and progress, show you the information you are entitled to see, keep the account secure, and maintain the service.

6. Disclosure

- **To you, and any other connected parent or guardian,** as described in the Privacy Policy, Section 5.1.
 - **To our service providers,** only on our instructions and only to provide the service. These are listed in the **LYCEON Sub-Processor List**.
 - **Where required by law,** or to protect someone's safety.
-

7. Data Retention

We keep your child's information while the account is open. When the account is deleted, we delete the information that identifies your child after 7 days and de-identify the remaining learning records. Our full retention schedule is in Section 6 of the Privacy Policy.

8. Your Rights

At any time, you can:

- **review** the information we hold about your child;

- **correct** it;
- **delete** it, together with the account; and
- **refuse further collection**, by disconnecting or by asking us to close the account.

Email support@lyceon.ai from the address on your parent or guardian account. We may need to verify that you are the connected parent or guardian before acting on your request.

9. Changes

If we make a material change to how we collect, use or disclose your child's information, we will notify you and, where the law requires, obtain your consent before the change takes effect.

Standard sources followed

- FTC Children's Online Privacy Protection Rule, 16 CFR Part 312, as amended in 2025: §312.4(c)–(d), §312.5, §312.6, §312.7, §312.10 — <https://www.ecfr.gov/current/title-16/chapter-I/subchapter-C/part-312>
- FTC, *Complying with COPPA: Frequently Asked Questions* — <https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions>
- UK ICO, *Age appropriate design: a code of practice for online services* — <https://ico.org.uk/for-organisations/uk-gdpr-guidance-and-resources/childrens-information/childrens-code-guidance-and-resources/>

Counsel checklist

1. Confirm that the parental consent method in Section 2 meets 16 CFR §312.5(b).
2. Confirm whether 16 CFR §312.5(c) permits holding the information described in Section 2 before a parent or guardian connects, and for how long.
3. Insert the postal address and telephone number in Section 1 (16 CFR §312.4(d)(1)).
4. Confirm whether referring to the Privacy Policy satisfies the retention policy requirement in 16 CFR §312.10.
5. Confirm that retaining de-identified learning records after deletion is consistent with 16 CFR §312.10.
6. Confirm whether jurisdiction-specific sections are required (Ireland, Australia, UK Children's Code).

LYCEON Parental Consent

Version 1 · Effective date: [●]

1. Connection Process

1. The student creates an account and provides their date of birth. If the student is under 13, learning features are unavailable until a parent or guardian connects.
2. The student gives their parent or guardian a link code. At the student's request, LYCEON emails the code to an address the student provides.
3. The parent or guardian signs in to their own LYCEON account. Parents and guardians must be at least 18.
4. The parent or guardian enters the link code, accepts the consent statement in Section 2, and submits. The student's learning features then become available.
5. If the last connected parent or guardian disconnects, the student's learning features are no longer available.

2. Consent Statement

Shown unticked. The request cannot be submitted until it is ticked.

☐ I am this student's parent or legal guardian, and I am at least 18. I have read and agree to the **Parent / Guardian Terms**, and I have read the **Privacy Policy** and the **Children's Online Privacy Notice**. I consent to my child's use of LYCEON as described in those documents, including the collection and use of my child's learning activity to provide the service.

Shown below the statement:

You can disconnect, or ask us to delete your child's information, at any time. Email support@lyceon.ai.

For a student aged 13 to 17, the last sentence of the statement reads: "I agree to my child's use of LYCEON as described in those documents."

3. Consent Record

For each consent, LYCEON records:

- the document and version accepted;
- the date and time;
- the parent or guardian account that gave consent; and
- the IP address and browser used.

Consent records are retained as described in Section 6.2 of the Privacy Policy.

4. Identity Verification

Consent relies on the parent's or guardian's acceptance, the age requirement for parent and guardian accounts, and the student's link code.

Standard sources followed

- FTC COPPA Rule, 16 CFR §312.5, as amended in 2025 — <https://www.ecfr.gov/current/title-16/chapter-I/subchapter-C/part-312>
- FTC, *Complying with COPPA: Frequently Asked Questions*, Section H — <https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions>
- GDPR Article 8 — <https://eur-lex.europa.eu/eli/reg/2016/679/oj>

Counsel checklist

1. Confirm whether the process in Sections 1 to 4 is a verifiable parental consent method under 16 CFR §312.5(b), or which method must be added.
2. Confirm whether a payment-card transaction at checkout may serve as a verification method for subscribing families.
3. Confirm the consent statement, including the 13 to 17 variant.
4. Confirm that the consent record is adequate evidence of consent.
5. Confirm the position for jurisdictions with a digital age of consent above 13 (for example Ireland).

LYCEON Cookie Policy

Version 1 · Effective date: [●]

This Cookie Policy explains the cookies and similar technologies LYCEON uses, why we use them, and how you can control them. It supplements the **LYCEON Privacy Policy**.

1. What Cookies Are

Cookies are small text files that a website stores in your browser. Similar technologies include your browser's local storage and session storage. In this policy, "cookies" covers all of them.

2. Categories of Cookies

2.1 Strictly Necessary

These cookies are required for the service to work. They keep you signed in, protect your account and the website against misuse, and remember your settings. They do not require your consent.

2.2 Analytics

These cookies help us understand how the service is used so that we can improve it. They are set by PostHog **only if you accept analytics cookies**. Accounts of users under 13 are excluded.

2.3 Cookies We Do Not Use

We do not use advertising cookies, cross-site tracking cookies, or cookies that sell or share your information for advertising.

3. Cookies We Use

Name	Category	Provider	Purpose	Duration
sb-<project>-auth-token	Strictly necessary	LYCEON	Keeps you signed in	[●]
__Host-csrf	Strictly necessary	LYCEON	Protects your account against forged requests	[●]

Name	Category	Provider	Purpose	Duration
Sign-in verifier	Strictly necessary	LYCEON	Completes "Sign in with Google" securely	Until sign-in completes
lyceon - theme (local storage)	Strictly necessary	LYCEON	Remembers your display preference	Until you clear it
Device identifier (local storage)	Strictly necessary	LYCEON	Supports the operation of the service on your device	Until you clear it
Notice preference (session storage)	Strictly necessary	LYCEON	Remembers that you dismissed a notice	Until you close the tab
Cookie consent record	Strictly necessary	LYCEON	Remembers your cookie choice	6 months
Security check	Strictly necessary	Cloudflare (Turnstile)	Protects forms against automated abuse	[●]
ph_<project>_posthog	Analytics	PostHog	Distinguishes visits for analytics	[●]
lyceon_first_touch (session storage)	Analytics	LYCEON	Remembers how you first arrived (for example, from an ad or a search engine) until you create an account	Until you close the tab

4. Your Choices

- **Cookie banner.** When you first visit, we ask whether you accept analytics cookies. "Accept" and "Reject" are equally prominent, and you can choose by category.
- **Changing your choice.** Use the **Cookie settings** link at the bottom of any page, or your account settings, at any time.
- **Global Privacy Control.** If your browser sends a Global Privacy Control signal, we treat it as a refusal of analytics cookies.
- **Do Not Track.** We do not respond to Do Not Track signals. We honor Global Privacy Control.
- **Browser settings.** You can block or delete cookies in your browser settings. If you block strictly necessary cookies, some parts of the service will not work.

5. Third-Party Content

Math questions include the Desmos graphing calculator, which is loaded from desmos.com. When it loads, Desmos receives technical information from your browser, such as your IP address.

6. Changes

We will update this policy when the cookies we use change, and update the effective date.

7. Contact

support@lyceon.ai

Standard sources followed

- California CCPA regulations, 11 CCR §7025 (opt-out preference signals) — <https://coppa.ca.gov/regulations/>
- Global Privacy Control specification — <https://globalprivacycontrol.org/>

Counsel checklist

1. Complete each duration marked [●].
2. Confirm the strictly necessary classification of each local storage and session storage item.
3. Confirm whether Desmos, Cloudflare Turnstile or any Trustpilot content on the website stores information in the browser, and whether any of it requires consent.
4. Confirm the 6-month duration of the cookie consent record.
5. Confirm that the Do Not Track statement meets Cal. Bus. & Prof. Code §22575(b)(5).

Counsel checklist

1. Confirm that the first layer provides clear and comprehensive information under ePrivacy Directive Article 5(3).
2. Confirm whether session recording requires a separate choice from analytics.
3. Confirm the Global Privacy Control handling for users in the EU and UK.
4. Confirm the 6-month interval before the choice is requested again.
5. Confirm the content and retention period of the consent record.

LYCEON California Notice at Collection

Version 1 · Effective date: [●]

If you live in California, this notice describes the personal information we collect, why we collect it and how long we keep it. Further details are in the **LYCEON Privacy Policy**.

Categories of Personal Information

Category	Examples	Purpose	Retention
Identifiers	Name, email address, account ID, IP address	To create and operate your account, keep it secure, contact you about the service and invite you to leave a review	While your account is open; on deletion, as described in Privacy Policy Section 6.2
Customer records	Billing name and address, subscription records	To process payments and manage subscriptions	Payment records: 7 years
Characteristics of protected classifications	Date of birth	To apply age requirements	While your account is open
Commercial information	Subscription purchased, billing period	To provide the service you purchased	Payment records: 7 years
Internet or other electronic network activity	Pages used, device and browser data, log data; analytics and session recording if you accept analytics cookies	To operate, secure and improve the service	Security records: 365 days; other operational records: up to 90 days; analytics: as described in Privacy Policy Section 6.6
Education information	Practice answers, progress, test results	To provide the learning service and show progress	While your account is open; de-identified on deletion
Electronic information	Text conversations with LISA (users 13 and over)	To provide the AI tutor	While your subscription is active, then 7 days
Sensitive personal information	Account login credentials	To let you sign in and keep your account secure	While your account is open

We do not collect precise geolocation, government identifiers, financial account numbers, health information or biometric information.

Sale and Sharing

We do not sell your personal information or share it for cross-context behavioral advertising, including the information of consumers under 16. See the **LYCEON Notice of Right to Opt Out of Sale or Sharing**.

Sensitive Personal Information

We use sensitive personal information only to provide the service and keep it secure.

Your Rights

You can request to know, delete or correct your personal information, and we will not discriminate against you for doing so. See Section 8.1 of the Privacy Policy or email support@lyceon.ai.

Privacy Policy: [link]

Standard sources followed

- California Civil Code §1798.100(a)–(b), §1798.120, §1798.121 — <https://leginfo.legislature.ca.gov/>
- California CCPA regulations, 11 CCR §7012 (notice at collection) and §7027(m) (sensitive personal information) — <https://cpa.ca.gov/regulations/>
- California Civil Code §1798.140(v) (categories of personal information)

Counsel checklist

1. Confirm the category mapping, including "education information" (§1798.140(v)(1)(J)) and the category for tutor conversation text.
2. Confirm that the retention periods meet 11 CCR §7012(e)(4).
3. Confirm the classification of date of birth.
4. Confirm placement at sign-up and checkout under 11 CCR §7012(c).
5. Confirm whether LYCEON meets a CCPA applicability threshold.

Your Privacy Choices: Sale and Sharing

Version 1 · Effective date: [●]

We Do Not Sell or Share Your Personal Information

LYCEON **does not sell** personal information and **does not share** it for cross-context behavioral advertising, as those terms are defined under California law. We have not done so in the past 12 months. We do not show advertising.

This includes the personal information of consumers under 16.

Service Providers

We use service providers for hosting, database, payments, email, AI services, product analytics, security and customer reviews. They process personal information only on our instructions and only to provide services to us, under contracts that prohibit them from using it for their own purposes. They are listed in the **LYCEON Sub-Processor List**.

Global Privacy Control

We honor the Global Privacy Control (GPC) signal. If your browser sends GPC, we treat it as:

- a request to opt out of the sale or sharing of your personal information; and
- a refusal of analytics cookies, so analytics and session recording do not run in that browser.

Changes to Our Practices

If we intend to sell or share personal information, we will update this notice and provide a way to opt out before doing so. For consumers under 16, we will obtain opt-in consent as required by law.

Contact

support@lyceon.ai

Standard sources followed

- California Civil Code §1798.120 and §1798.135 — <https://leginfo.legislature.ca.gov/>

- California CCPA regulations, 11 CCR §7013, §7025 and §7026 — <https://coppa.ca.gov/regulations/>
- Global Privacy Control specification — <https://globalprivacycontrol.org/>

Counsel checklist

1. Confirm whether this notice is required under 11 CCR §7013(a), and the title of the footer link.
2. Confirm that the PostHog and Trustpilot relationships are service-provider relationships and not "sharing" under §1798.140(ah).
3. Confirm how a GPC signal applies to a signed-in account under 11 CCR §7025(c)(1).
4. Confirm the wording covers universal opt-out mechanisms under other state laws (for example Colorado, Connecticut and Texas).

LYCEON AI Content Disclosure

Version 1 · Effective date: [●]

LYCEON uses artificial intelligence (AI) in parts of the service. This notice explains where AI is used and what to do if something looks wrong.

1. Where AI Is Used

- **LISA, the AI tutor.** LISA's explanations, hints and replies are **generated by AI**. LISA is available to students aged 13 and over with a paid subscription.
- **Automated results.** Practice scores, test scores and progress summaries are **calculated automatically** from the questions you answer.

Questions, answer explanations and articles in LYCEON are prepared by LYCEON.

2. Limitations

- **AI can be wrong.** LISA's responses may be incomplete, unclear or incorrect. Check them against the question and your own work.
 - **LISA is a study aid.** It is not a teacher, an official SAT source, or professional advice.
 - **No decisions about you.** LISA's responses do not change your scores, progress or account.
 - **Practice results are estimates.** Scores in LYCEON are not official SAT scores.
-

3. Safety

We use automated safety checks and human review to keep conversations with LISA appropriate. If a conversation suggests that someone may be at risk, we may review it and act as described in **Trust & Safety at LYCEON**.

4. Your Information

How tutor conversations are processed and how long they are kept is described in the **LYCEON Privacy Policy**. Conversations are not used to train public or general-purpose AI models.

5. Reporting a Problem

If LISA says something incorrect, inappropriate or concerning, email support@lyceon.ai with the approximate date and time.

6. Changes

We will update this notice as laws and our use of AI change, and update the effective date.

Standard sources followed

- Regulation (EU) 2024/1689 (AI Act), Article 50 — <https://eur-lex.europa.eu/eli/reg/2024/1689/oj>
- FTC, *Keep your AI claims in check* — <https://www.ftc.gov/business-guidance/blog/2023/02/keep-your-ai-claims-check>
- UK ICO, *Explaining decisions made with AI* — <https://ico.org.uk/for-organisations/uk-gdpr-guidance-and-resources/artificial-intelligence/explaining-decisions-made-with-artificial-intelligence/>

Counsel checklist

1. Confirm that Section 1 meets the transparency obligations in AI Act Article 50(1).
2. Assess whether the service is high-risk under AI Act Annex III.
3. Confirm the statement in Section 2 that no automated decisions with legal or similarly significant effects are made (GDPR Article 22).
4. Confirm whether an Australian automated decision-making disclosure is required.
5. Confirm whether an in-product reporting option is required in addition to email.

LYCEON Marketing Communications Consent

Version 1 · Effective date: [●]

1. Consent Checkbox

Shown unticked at sign-up and in account settings, separately from acceptance of the Terms. It is not required to use LYCEON.

☐ **Send me occasional emails from LYCEON** with study tips, SAT news and updates about new features. I can unsubscribe at any time.

Shown below the checkbox:

We will still send emails about your account, such as sign-in, billing and safety messages. See our **Privacy Policy**.

The checkbox is not shown to users under 13.

2. What We Send

If you opt in, we may send:

- study tips and SAT preparation guides;
- SAT news relevant to students or parents;
- updates about new LYCEON features; and
- offers relating to LYCEON subscriptions.

3. Service Messages

Messages about your account and the service do not require this consent. These include sign-in and security messages, billing and renewal reminders, receipts, safety messages, changes to our terms, and notifications you have turned on.

4. Unsubscribing

- **Unsubscribe link:** every marketing email contains an **Unsubscribe** link. One click stops marketing emails; you do not need to sign in.
- **Account settings:** turn **Marketing emails** on or off at any time.
- **Email:** support@lyceon.ai.

We process unsubscribe requests promptly, and in any case within 10 business days.

5. Who Does Not Receive Marketing

- Users under 13.
- Anyone who has unsubscribed or asked us not to contact them.

6. Sender Identification

Each marketing email identifies LYCEON as the sender, includes our postal address, [POSTAL ADDRESS], and contains an unsubscribe link.

7. Consent Records

We record your choice, the date and time you made it, and where you made it.

Standard sources followed

- CAN-SPAM Act, 15 U.S.C. §7704, and FTC *CAN-SPAM Act: A Compliance Guide for Business* — <https://www.ftc.gov/business-guidance/resources/can-spam-act-compliance-guide-business>
- Canada's Anti-Spam Legislation (CASL), S.C. 2010, c. 23, s. 10, and CRTC guidance — <https://crtc.gc.ca/eng/com500/guide.htm>
- GDPR Article 7 and Directive 2002/58/EC Article 13 — <https://eur-lex.europa.eu/eli/reg/2016/679/oj>
- UK PECR regulation 22 and ICO direct marketing guidance — <https://ico.org.uk/for-organisations/direct-marketing-and-privacy-and-electronic-communications/>
- RFC 8058, *Signaling One-Click Functionality for List Email Headers* — <https://www.rfc-editor.org/rfc/rfc8058>

Counsel checklist

1. Confirm that marketing to students aged 13 to 17 who opt in is permitted in each launch market, and whether parental notice is required.
2. Confirm that the checkbox wording meets CASL's express consent requirements.
3. Insert the postal address in Section 6 (CAN-SPAM §7704(a)(5); CASL).
4. Confirm the consent record fields and their retention period after opt-out.
5. Confirm the unsubscribe processing wording.

LYCEON Billing Terms

Version 3 · Effective date: [●]

These Billing Terms are the Auto-Renewal Offer Terms for LYCEON subscriptions. They are presented before you complete checkout, and you are asked to agree to them separately from the LYCEON Terms of Use.

They summarise how billing works. The **LYCEON Subscription and Auto-Renewal Notice** and the **LYCEON Refund Policy** govern in full, and this page links to both.

At a Glance

Your subscription continues until you cancel. We charge the amount shown at checkout at the start of each Billing Period until you cancel.

You are paying for one student's access. Entitlement attaches to the student account you select at checkout. If you are a parent or guardian, paying does not give your own account premium access — you see your linked student's progress because *they* are subscribed.

You can cancel at any time, online, from your account settings. Cancelling stops future charges and you keep paid access until the end of the period you have already paid for.

First subscription: 7-day satisfaction guarantee. Full refund, no questions about whether you used it.

Renewal you forgot about: 3-day grace window if the Service has not been used since the charge.

If you are in the EU, EEA or UK, you have a statutory 14-day withdrawal right that takes precedence.

1. What You Are Buying

A LYCEON premium subscription for **one student account**.

Premium unlocks practice beyond the free plan's daily limit, the LISA tutor, full-length practice tests with score reports, skill-level progress and a study plan, and lets a linked parent or guardian see the student's progress.

The entitlement belongs to the student, not to the payer. A parent, guardian, or other third party may pay, and the paid access attaches to the student account selected at checkout. A guardian linked to a

subscribed student sees that student's progress data for as long as the student's subscription is active.

To subscribe for more than one student, you subscribe for each separately. Each student's access is independent.

2. Price and Billing Period

The price and Billing Period are shown at checkout before you pay, in your local currency, and are the amounts you are agreeing to when you consent to these Billing Terms.

LYCEON offers monthly, quarterly and annual Billing Periods. All three deliver the same premium access; they differ only in billing frequency and commitment.

Your subscription renews automatically at the end of each Billing Period, at the same price, charged to the payment method you provided, until you cancel.

We do not charge you for anything other than the price disclosed at checkout, or a price change made with advance notice under Section 5 of the Subscription and Auto-Renewal Notice. We do not enrol you in additional paid services without separate disclosure and separate consent.

3. Who May Subscribe

The person completing checkout must be at least 18 years old and authorised to use the payment method provided.

If the student is under 18, a parent or legal guardian who connects to their account agrees to the **LYCEON Parent / Guardian Terms**.

LYCEON subscriptions are currently available to payers with a billing address in the United States, Canada, the United Kingdom, Australia, New Zealand, Ireland and Singapore. If your billing address is outside these countries, we cannot provide a paid subscription, and any charge taken in error will be refunded.

4. Cancelling

Cancel online, at any time, from your account settings, through the customer portal. No phone call, no email, no retention conversation — the same medium in which you subscribed.

When you cancel:

- No further Renewal Charges occur
- You keep paid access until the end of the Billing Period you have already paid for

- The account reverts to the free tier; data and progress remain

You may also cancel by emailing support@lyceon.ai. This is an alternative, not a requirement — the online portal is the primary cancellation path.

5. Refunds

Governed in full by the **LYCEON Refund Policy**. In summary:

Situation	What you get
First subscription, within 7 days	Full refund, whether or not the Service was used
Renewal charge, within 3 days, unused since the charge	Full refund
Renewal charge outside that window	Reviewed case by case — contact us
EU / EEA / UK	Statutory 14-day withdrawal right, whichever is more favourable

When a refund is issued, the subscription is cancelled and the student's paid access ends. Free-tier access remains on the same account.

Either the Payer or the holder of the student account may request a refund, by emailing support@lyceon.ai with the account email and the charge concerned.

6. Reminders We Send You

- **Annual subscriptions:** a reminder before each renewal, and a mid-cycle acknowledgment
- **Shorter Billing Periods:** reminders as described in Section 4.2 of the Subscription and Auto-Renewal Notice
- **After you subscribe:** a confirmation containing these Billing Terms, your cancellation rights, and how to cancel
- **Before any price increase:** at least 30 days' advance written notice, with the option to cancel before it takes effect

Reminders go to the email address associated with the payment method — the Payer's address, which may differ from the student's account email.

7. Your Consent

By checking the box at checkout, you confirm that:

- You are at least 18 and authorised to use the payment method
- You agree your subscription renews automatically at the price and interval shown, until you cancel
- You understand the entitlement attaches to the student account selected, not to your own account if you are a guardian or third-party payer
- You have read these Billing Terms, the Subscription and Auto-Renewal Notice, and the Refund Policy

This consent is separate from your acceptance of the **LYCEON Student Terms of Use**, which you accepted when you created your account.

We keep a record of this consent — the date and time, the version of these Billing Terms, and the account it belongs to — for no less than three years, or one year after the subscription ends, whichever is longer.

8. Related Documents

- **LYCEON Subscription and Auto-Renewal Notice** — renewal mechanics, reminders, price changes, and your rights by region
- **LYCEON Refund Policy** — refund windows, how to request, what happens after
- **LYCEON Student Terms of Use** — using the platform
- **LYCEON Parent / Guardian Terms** — for guardians connected to a student account
- **LYCEON Privacy Policy** — how we handle your data

9. Changes to These Terms

Each version of this document carries a version number and effective date. When we make changes, we publish a new version with a new effective date, and the previous version remains available.

For changes that affect an existing subscription, we give at least 30 days' advance notice as described in Section 5 of the Subscription and Auto-Renewal Notice. Continued subscription after a change takes effect constitutes acceptance.

The version you agreed to at checkout governs your subscription until you receive notice of a change.

Standard sources followed

- California Automatic Renewal Law, Cal. Bus. & Prof. Code §17600–17606 (clear and conspicuous offer terms, affirmative consent, acknowledgment, online cancellation) — <https://leginfo.legislature.ca.gov/>
- Restore Online Shoppers' Confidence Act (ROSCA), 15 U.S.C. §8403 — <https://www.ftc.gov/legal-library/browse/statutes/restore-online-shoppers-confidence-act>
- FTC Act §5 and FTC guidance on clear and conspicuous disclosures (".com Disclosures") — <https://www.ftc.gov/business-guidance/resources/com-disclosures-how-make-effective-disclosures-digital-advertising>
- Consumer Contracts (Information, Cancellation and Additional Charges) Regulations 2013 (UK) and Directive 2011/83/EU Article 9 (14-day withdrawal) — <https://www.legislation.gov.uk/ukSI/2013/3134>

Counsel checklist

1. Confirm that "practice beyond the free plan's daily limit" accurately describes the paid plan, and whether any per-session limit must be disclosed.
2. Confirm the description of parent and guardian access in Section 1.
3. Confirm whether the changes from version 2 require existing subscribers to consent again, or notice under Section 9.
4. Confirm consistency with the Subscription and Auto-Renewal Notice.

LYCEON School Data Privacy Addendum

Version 1 · Effective date: [●]

1. Data Privacy Agreement

Where a school, district or other educational agency (the "School") uses LYCEON for its students, LYCEON enters into the **Student Data Privacy Consortium (SDPC) National Data Privacy Agreement (NDPA)**, version 2, with the state-specific exhibit for the School's state where one exists. That agreement governs. This addendum summarizes its commitments.

Where the School uses its own data privacy agreement, LYCEON will review it against the same commitments.

2. Our Role

- **School official.** LYCEON acts as a "school official" with a "legitimate educational interest" under FERPA (34 CFR §99.31(a)(1)(i)(B)). We perform a service the School would otherwise perform itself, we are under the School's direct control with respect to the use and maintenance of education records, and we use them only for authorized purposes.
- **School control.** Student data provided by or through the School remains under the School's control. LYCEON processes it only to provide the service to the School.
- **Students under 13.** Where the School authorizes LYCEON's use for its students, LYCEON relies on that authorization in the school context only, consistent with FTC COPPA guidance, and uses the data only for the School's educational purpose.

3. Our Commitments

- **No sale or advertising.** We do not sell student data, use it for targeted advertising, or build profiles for non-educational purposes.
- **Use limitation.** We use student data only to provide the service under the agreement.
- **Sub-processors.** We bind each sub-processor to obligations at least as protective as ours. They are listed in the **LYCEON Sub-Processor List**.
- **Security.** We maintain reasonable administrative, technical and physical safeguards, aligned with the framework named in the agreement's security exhibit.
- **Breach notification.** We notify the School of a data breach affecting its student data within the period required by the agreement or applicable state law, whichever is shorter.

- **Access and correction.** We assist the School in responding to requests from parents and eligible students to review or correct education records.
- **Return and deletion.** When the agreement ends, or on the School's written request, we return or delete the School's student data within the period set by the agreement, and certify deletion on request. De-identified data is retained only as the agreement permits.
- **No re-disclosure.** We do not disclose student data except as the agreement permits or the law requires.

4. School Access

The School's authorized staff can view the progress and activity of the School's own students, as set out in the agreement.

5. Contact

support@lyceon.ai

Standard sources followed

- Student Data Privacy Consortium, National Data Privacy Agreement v2 and state exhibits — <https://privacy.a4l.org/national-dpa/>
- FERPA, 20 U.S.C. §1232g; 34 CFR Part 99, §99.31(a)(1)(i)(B) — <https://www.ecfr.gov/current/title-34/subtitle-A/part-99>
- U.S. Department of Education PTAC, *Protecting Student Privacy While Using Online Educational Services: Requirements and Best Practices* — <https://studentprivacy.ed.gov/>
- FTC, *Complying with COPPA: Frequently Asked Questions*, Section N — <https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions>
- California SOIPA, Bus. & Prof. Code §22584

Counsel checklist

1. Confirm the school authorization wording in Section 2.
2. Confirm the standard position on de-identified data after termination.
3. Name the security framework for the NDPA security exhibit.
4. Confirm which state exhibits to prepare first.
5. Confirm whether this addendum is published or supplied to schools on request.

LYCEON Sub-Processors

Last updated: [●]

The following service providers process personal information on LYCEON's behalf. Each processes it only on our instructions and only to provide its service to us.

Provider	Service	Personal information processed	Location
Supabase	Database and authentication	Account data, learning data	[●]
Vercel	Application hosting and delivery	Request and log data, including IP address	[●]
Stripe	Payment processing	Payer name, email address, billing address, payment method	[●]
Google Cloud	AI services and content safety; background processing	Tutor conversation text (users 13 and over); internal identifiers	[●]
Google	Sign in with Google	Google sign-in details	[●]
Resend	Email delivery	Email address, message content	[●]
Desmos	Graphing calculator	Technical browser data, such as IP address	[●]
Slack	Internal team notifications	Internal reference numbers	[●]
PostHog	Product analytics and session recording	Usage events and page interactions	[●]
Cloudflare	Security and bot protection (Turnstile)	Technical browser data	[●]
Trustpilot	Customer reviews	Name, email address, reference number	[●]

We will update this list before engaging a new sub-processor that processes personal information.

Standard sources followed

- GDPR Article 28(2) and (4), and Article 30 — <https://eur-lex.europa.eu/eli/reg/2016/679/oj>

Counsel checklist

- Complete each location, and the transfer safeguard for each provider (standard contractual clauses, UK addendum or Data Privacy Framework).
- Confirm the processor characterization of Desmos, Slack and Trustpilot.
- Confirm whether to commit to a notice period before engaging a new sub-processor.
- Confirm that a data processing agreement is in place with each provider.

5. Confirm that the list is complete on the publication date.
